

# ***Deep Root Regeneration Program***

**INTRODUCING OUR  
KODIAK TREE  
HEALTH CARE**  
A FULLY ORGANIC PROGRAM FOR  
HEALTHIER TREES, NATURALLY.

## **DEEP ROOT REGENERATION**

24 MONTH / 2 YEAR PROGRAM – SPRING AND FALL INJECTIONS

SUGGESTED APPLICATIONS:

- ESTABLISHED AND MATURE TREE AND SHURBS – INCREASE PLANT DEFENSE MECHANISMS, PROACTIVE TREATMENT APPROACH
- POOR SOIL CONDITIONS – HEAVY COMPACTION, POOR WATER ABSORPTION
- NEW PLANTING PROJECTS
- ORCHARD AND FRUIT TREE APPLICATION

## **OUR HOLISTIC APPROACH SUPPORTS**

- ENHANCING SOIL HEALTH AND BIODIVERSITY
- RESTORING NATURE'S BALANCE
- THIS PROGRAM COMPLIMENTS OTHER INTEGRATED PEST MANAGEMENT PROGRAMS

# Deep Root Regeneration Program

 Spring Application					 Fall Application				
Included	Description	Benefits			Included	Description	Benefits		
✓	Humate and Fulvic Acid	Base of soil organic matter	Full of trace minerals	Improves Soil fertility and water- holding capacity and phosphorus uptake	✓	Kelp	Improves both growth and flowering in spring	Powerful anti-stress tool for wintering and dormancy	Enhances water retention and soil conditions
✓	Photosynthesis Stimulator	Aids in plant uptake of minerals and cell strength	Boosts Chlorophyll production	Aids in boosting immunity and overall plant function	✓	Micro Nutrient Booster	Assists with over wintering and defoliation stress	Builds a strong base for Nitrogen fixation for winter storage	Builds of storage of Nitrogen in Organic Matter
✓	Molasses	Full of Micro Nutrients, Enzymes and Vitamins	Assist soil in holding nutrients and prevents leaching	Provides an organic food source for Bacteria within the soil and injection	✓	Molasses	Full of Micro Nutrients, Enzymes and Vitamins	Assist soil in holding nutrients and prevents leaching	Provides an organic food source for Bacteria within the soil and injection
✓	Mycorrhizal	Enhances roots and shoots growth and helps plants permanently improve water and nutrient uptake	High biodiversity to assist a vast variety of plants	Assists with natural phosphorus uptake	✓	Soil Bacteria and Microorganism Activator	Ability to improve soil structure, organic matter decomposition and increase energy flow and nutrient cycling	Ability to make atmospheric nitrogen and soluble phosphorus more available for plant uptake	Enhance the nutrient uptake efficiency of plants

KODIAK TREE SERVICE – RESTORING NATURE,  
ONE TREE AT A TIME.
